

## STEPS TO ENJOY YOUR SITE!

1. You will receive an email that has a temporary password and a link to your private page.
2. The link will take you to your private page. Login with your email address and your temporary password. (you will then be able to change this password to something else easier to remember)
3. You will now see your private site! It would be a good idea to save this website to your Favorites.
4. This set of tabs helps organize your saved searches, favorite listings, possible listings, the ones that I recommend to you, along with Additional Properties that I email to you.
5. This section shows the listings. You can view more details, save this property (as a favorite or as a possibility), you can also delete it.
6. Once it is saved as either a Favorite or as a Possibility, you then can add your notes (these can be viewed below each listing with my response).
7. \*This section shows your scheduled interaction for today and your completed tasks for today.
8. \*There is also a link to see all of your tasks and your entire history.
